Ref: NSEU (Java Utility)

Users of the e-Procurement System (e-PS) are notified that the NexProcure Signing and Encryption Utility (NSEU) also known as the Java Utility has been updated to version 401.08.119.

Installing the Java Utility is a prerequisite for using the Digital Signature Certificate.

Users who on their computers have a previous version of the Java Utility will need to remove the latter and install the new one.

Consult the “How to Install NexProcure Signing and Encryption Utility?” manual available on “How to?” menu on e-PS homepage (https://eproc.publicprocurement.govmu.org) for the instructions on installation and removal.

For assistance, contact the e-Procurement Help Desk team on +230 201-1530 or eprocdesk@govmu.org.
